MARIE GELINAS GILES

Artist Statement

Being a Bohemian Intellectual that lives mostly in her right brain is quite entertaining.

I love to talk, chat, laugh and tell stories. My passion for abstract painting is an exciting ability to exhibit my endless soliloquies.

For me, it is simple. It is all about my sense of balance and my perception of colour. My desires and visions combine to create the starting point of my work. Possibilities emerge, out of sheer enjoyment and pleasure, to reveal something that I did not know.

The process, pure, playful and fun, opens up a quality of freedom.
